

PROJECTED **SHE** CONSULTANTS AND TRAINING

South African Institute of
Occupational Safety and Health
Corporate Member

Industry-Leading Safety and Occupational Health Training

Discover exceptional training solutions provided by
Projected SHE Consultants and Training.

Our dedicated team of subject matter facilitators and assessors
is committed to delivering programs that exceed industry
standards, equipping individuals and organizations with the
essential knowledge and skills for success.

WHO ARE WE

Projected **SHE** Consultants and Training is a combination of subject matter Facilitators and Assessors that go the extra mile to make sure our training is above and beyond any other training offered in the industry.

We have vast experience in the different fields of Construction Safety, Occupational Health & Safety Training and all Lifting equipment, Earth Moving Equipment as well as Dangerous Goods training.

We strive to thoroughly understand the needs of our clients as well as their training and performance development requirements, values, culture and processes by actively engaging and building trusted partnerships with our clients. Discover exceptional training solutions provided by Projected **SHE** Consultants and Training.

Our dedicated team of subject matter facilitators and assessors is committed to delivering programs that exceed industry standards, equipping individuals and organizations with the essential knowledge and skills for success.

Projected **SHE** Consultants and Training is situated in Fairleads, Benoni.

We can provide offsite Training at our well established training facility that can accommodate 15+ students at any time.

It is not always possible to send your staff off-site for training, therefore we provide facilitators to travel (anywhere in South Africa) and provide onsite training at your premises. We only require a suitable indoor facility with ample space and seating for students to complete the written assessment and equipment to finalize the practical aspects of the course.

FIRE DIVISION

- FIRE FIGHTING EQUIPMENT

- Fire Extinguishers
- Hose Reels
- Hydrant Valves
- Boosters
- Fire Blankets
- Regulation Fire First Aid Kits
- Chemical and Oil Spill Kits

- FIRE DETECTION & SMOKE EXTRACTION

- Smoke & Heat Detection
- Linear Heat Detection
- Beam Detection
- Aspirating Detection (air sampling)
- Flame Detection
- Smoke Extraction Systems

- GASEOUS FIRE SUPPRESSION

- FM200 (chemical)
- CO2 (non-human friendly)
- Pyroshield (clean agent)
- Novec 1230 (clean agent)
- FM200 (clean agent)

- KITCHEN FIRE SUPPRESSION SYSTEMS

Automatic Detection and Activation
Management provides 24 hours Protection.

- OCCUPANCY & BUILDING SERVICES

- Evacuation Plans
- Fire Department Certificates
- Fire Compliance Reports
- Fire Consulting
- OHS Audits and Risk Assessments
- Emergency Lighting
- Hydrant and Hose Reel
- Reticulation
- Emergency Procedure Plans

- AUTOMATIC FIRE PROTECTION SYSTEMS

- Automatic Sprinkler Systems – ASIB approved
- Deluge Water Spray systems
- Fire Water Supply Pump & Tank Installations
- Proposals and Estimates
- Hydraulic Calculation & Analysis
- Flow and Pressure testing

- SMOKE VENTILATION SYSTEMS

- Automatic Opening
- Vents(Fusible Link)
- Mechanical Vents
- Powered Extract Systems
- Design Compliance
- Installation Compliance
- Performance compliance

- FIRE COMPLIANCE AUDITS

- SERVICING OF EXTINGUISHERS

Fusible Link and Mechanical Installations and Maintenance.

FIRE DIVISION OVERVIEW

We are a competent BBBEE level THREE contributing service provider with full accreditation and a proven track record committed to safeguarding both life and property from the devastating effects of fire and Security.

We offer a host of dynamic professional services ranging from Risk Assessment Surveys to the Design, Supply and Installation of a full range of approved Fire Safety Systems and Equip-ment. We also carry out on and off-site training to ensure you and your staff know the risks and how to handle them.

Our main consideration to risk includes the health and safety of personnel in the workplace as well as what impact a disaster will invariably have on the environment. We aim to eliminate all forms of risk associated with people and the environment they are working in. Thus ensuring your compliance with the stringent requirements of the Occupational Health and Safety Act.
